THE PROBLEM

Every Indian MBBS and GP Faces This in Dermatology OPD

The gap between medical school dermatology and real OPD practice is enormous — and no one fills it.

No time to think

40 patients waiting. Skin case arrives. You have 3 minutes. No dermatologist nearby. What do you do?

Misdiagnosed fungal infections

India has a silent epidemic of steroid-modified tinea. Most MBBS and GPs are unknowingly prescribing the drugs that cause it.

Wrong steroid selection

Potent steroids on the face. Mild steroids on thick palmar plaques. The steroid ladder is unclear from textbooks.

Textbooks don't help in OPD

Dermatology textbooks are written for dermatologists. Nothing is designed for 3-minute MBBS and GP consultation reality.

THE SOLUTION

ClinicalSutra Built the Answer for MBBS & GPs

A clinical reference built around real Indian OPD practice — not textbooks, not theory. Designed for MBBS doctors and GPs.

01

5-Step Framework

One framework for any skin case. Apply in 60 seconds. Morphology → Distribution → Onset → Symptoms → Systemic clues.

02

MBBS and GP Treatment Protocols

Not "refer to dermatologist for everything." Real protocols you can execute at your OPD today.

03

Emergency Alerts

SJS, erythroderma, necrotising fasciitis — recognise immediately. Know when to act, when to refer, when to call the surgeon.

04

Prescribing Cheat Sheet

18 topical + 14 systemic drugs with doses, indications, and safety notes. One page. Use it every single day.

30-Day Mastery Plan

Structured week-by-week learning you can fit into a busy clinical schedule. 30 minutes per day is enough.

India-Specific Context

Covers India's tinea epidemic, affordable drug choices, PHC-level investigations, and conditions relevant to Indian skin types.

CONTENT

What's Inside the Atlas

9 modules. 45+ conditions. Everything structured for rapid recall at the point of care.

✓ **Fungal Infections — India's #1 Problem**

All tinea types, candidiasis, pityriasis versicolor. KOH mount technique. Why to never use Panderm.

✓ **Bacterial Infections**

Impetigo to necrotising fasciitis. Antibiotic selection guide. Red flags for admission.

✓ **Viral Skin Diseases**

Herpes zoster, HSV, chickenpox, molluscum, warts. Start Acyclovir within 72 hours — why it matters.

✓ **Eczema Spectrum**

Atopic, contact, seborrhoeic, discoid, hand eczema. Topical steroid potency ladder explained.

Psoriasis Recognition & Management

Auspitz sign, Koebner phenomenon, nail changes. MBBS and GP-level treatment. When [illegible] therapy.

Acne Vulgaris — Grade 1 to 4

Stepwise treatment protocol. Adapalene, Clindamycin, Doxycycline, Isotretinoin criteria. Counselling guide.

Pigmentary Disorders

Vitiligo, melasma, PIH, pityriasis versicolor. Sunscreen importance. Triple cream protocol.

Urticaria & Angioedema

Acute vs chronic. Step-up antihistamine protocol. Anaphylaxis emergency management.

Scabies & Drug Reactions

Permethrin protocol, household contact rule. FDE to SJS/TEN recognition. Most common culprit drugs.

Hair & Nail Disorders

Alopecia types with treatment. 14 nail diagnostic signs and their systemic associations.

OPD Investigations

KOH mount, Wood's lamp, Tzanck smear — how to do them, how to interpret them at bedside.

Melanoma ABCDE Screening

Screen every pigmented lesion confidently. Know which ones need urgent biopsy referral.

WHO IT'S FOR

Built for Every Practising MBBS & Indian Clinician

MBBS & GP Doctors

Managing skin cases daily in urban, semi-urban, or rural OPD without specialist backup. Fresh MBBS to experienced MBBS and GP — built for all.

Rural Medical Officers

PHC/CHC settings where dermatology referral takes weeks. You need answers now.

EARLY READERS SAY

What Doctors Are Saying About the Atlas

"

The topical steroid ladder alone is worth the ₹299. I've been prescribing Betnovate on everything for years. Now I actually know what I'm doing.

★★★★★

Dr. R. Sharma
MBBS and GP — Rajasthan

"

The 5-step framework changed how I approach every skin case. I used to Google everything. Now I can think confidently before even opening my phone.

★★★★★

Dr. A. Patel
MBBS and GP, Private Clinic — Gujarat

"

Comprehensive and concise. I keep it open on my phone during OPD. The scabies section alone helped me identify an entire family with it in one visit.

★★★★★

Dr. M. Hussain
RMO, Rural Health Centre — UP
